 - a. To select service option call +2784135 OR 135 from Cell C SIM to get assistance.
 - b. Should a service not be available in a specific foreign country or network that service selected may not be used and will not work. Example, where roaming data services are not available on a network, only roaming voice and SMS services will be available and will work.
9. In countries where the Services are not launched the Service will not work.
10. Cell C will automatically detect when customers are back in South Africa and will apply the local applicable tariff rates when they are back home.
 - a. It is therefore not necessary to de-activate the Service when back home, enabling customers to only use roaming services in countries where prepaid roaming is available whenever they travel internationally.
 - b. It is important to be aware that the Service will not be switched off when you are

back in the country, and will remain activated.

11. For customers who live, work or travel close to any South African border:

- It is advisable to turn off international roaming on the device or de-activate the service whilst within the borders of South Africa.
- Cell C has also taken precautions in further minimizing the risk of accidental roaming for customers staying or living along the border.
- In the event beyond Cell C's control, it is advisable to turn off or de-activate international roaming where is unintended.

12. Due to the substantially higher cost of international roaming, customers must always ensure that their airtime balance is sufficient, that they carry additional recharge vouchers on their trip or that they can access their internet banking or via Cell C App to recharge their number.
